Introduction

This annual report is designed to provide the public with statistical information about types of property, exemptions, market and taxable values, the taxing entities, and the equality and uniformity of appraisals. This report is updated each year.

The Midland Central Appraisal District is a political subdivision of the state and is responsible for appraising all property in the district for ad valorem tax purposes. The appraisal district provides appraisal and collection services to all of the taxing entities located within the district.

Midland CAD is governed by a board of directors appointed by the taxing entities eligible to vote in the district. The chief appraiser serves at the pleasure of the board of directors and is the chief administrator officer of the appraisal district. The appraisal district is funded by the participating taxing entities, and the annual budget must be approved each year by the board of directors.

The Midland Central Appraisal District was created by the Texas Legislature in 1979. Senate Bill 621 required that an appraisal district be established in each county for the purpose of appraising property for ad valorem tax purposes. The property tax laws in Texas were established to eliminate multiple appraisals by local taxing entities and to correct inconsistencies in valuation.

The Texas Constitution defines five basic rules for property taxation:

1. Taxes must be equal and uniform.
2. Property must be taxed at market value.
3. Each property must have a single appraised value.
4. All property is taxable unless federal or state law exempts it.
5. Property owners have a right to reasonable notice of value increases.

Midland Central Appraisal District appraised property with constitutional rule, in compliance with the Texas Property Tax Code, and in accordance with the Uniform Standards of Professional Appraisal Practice (USPAP). USPAP establishes generally accepted appraisal practices and testing procedures to ensure that standards of accuracy and uniformity are maintained. These appraisal practices are also governed by the Property Tax Code and rules established by the Texas Comptroller of Public Accounts.

Information regarding property taxes in Texas may also be obtained from the Texas Comptroller's Property Tax Assistance Division. You can find the PTAD's website at the following address: <https://comptroller.texas.gov/taxes/property-tax/>

General Information

Midland Central Appraisal District is to be managed by professional staff with training and education prescribed by the State of Texas. Appraisers are registered with the Texas Department of Licensing and Registration and must complete courses and exams to become a Registered Professional Appraiser.

Appraisal practices are governed by the Texas Property Tax Code and rules established by the Texas Comptroller of Public Accounts. The Property Tax Assistance Division conducts a property value study and a Methods and Assistance Program review in alternating years. Results of both reviews are available on the Comptroller's website.
